

## New Insights 3 glossary revision word game

## PLAYER 1

Play this game with your partner. Work out what the missing words are with the help of some clues. All the words are from the glossaries in New Insights 3. You have to figure out four words per round and you get one point for each word you have guessed right. You have **three** guesses per word. Your partner has the key to your words, and you have the key to your partner's words.

Here is how you can work out what the word is:

1. The number of letters in the word is always given.
  2. You get four clues (one per word), but they are in no specific order.
  3. If you didn't get the word right, your partner will circle all the letters in your guess that also appear in the target word. For example, if you guess "white" and the word is "green", your partner will circle the letter "e" in your answer. If you guess "green" and the word is "white" your partner will circle only one "e" in the word "green".
- 

### WORDS FOR PLAYER 1

#### Round 1: 4-letter words

- |                            |                            |
|----------------------------|----------------------------|
| 1. _____<br>_____<br>_____ | 3. _____<br>_____<br>_____ |
| 2. _____<br>_____<br>_____ | 4. _____<br>_____<br>_____ |

CLUES:
